Numb. 5084

Monday, August 5, 1745.

Madrid, July 19.

THE Court will remove To-morrow to St. Ildefonso; on the 16th M. Scotti and Count Montijo, acompanied by the Dukes de St. Estevan and de Soferino, went to wait on the Bishop of Rennes, in order to make Proof of their Quality, that they may be received Knights of the Holy Ghost. On the 18th arrived a Courier from the Army of the Infant Don Philip, with Advice, that his Royal Highness had receiv'd the best Part of his Artillery, notwithstanding the Vigilance of the English upon the Coast; chiefly thro' the Care of those who were entrusted with the Embarkation thereof, who, by making use of small Vessels, and such as have no great Draught of Water, secured the few Pieces of Artillery in each of them, by putting it out of the Power of large Vessels to chace them near the Shore. The two Armies are certainly join'd by this Time, and we make no Question of learning, by the next Courier, that the Trenches are open'd before Alexandria. Our Troops are actually embarking at Ferrol; and M. Alvarez is appointed to command the Squadron of Five Men of War that are to escort them, with the Title only of Commodore. It is still affirmed at Court, that this Armament is intended for the Indies.

Naples, July 13. On the 10th returned to this Port, from a Cruize, two of the King's Gallies, who were relieved by two others. Several Transport Vessels, laden with Oil, Oats, and Corn, continue to arrive in this Port from Apuglia and Calabria, for the Use of the King's and the Spanish Troops in the State of Genoa; and M. Burretti, the Agent Victualler, has hired six Ships, in order to transport Flower to the said Troops; as they are small, and prime Sailers, it is thought they will escape the British Men of War. Many other Transports are returned to this Port from Port Ercole, after having unloaded there their Cargoes of Provisions, Ammunition, and Stores. On the 12th M. de l'Hopital, the French Ambassador, set out hence for the Island of Ischia, for the Benefit of the Baths.

Florence, July 20. On the 17th Instant, agreeable to the Regulation fixed and agreed upon by the Regency, and Marquis Silva, the Spanish and Neapolitan Consul at Leghorn, for the Passage thro' Tuscany of about 6000 Spanish and Neapolitan Troops, the first Column, consisting of 1000 Foot, 350 Horse, and 80 Gunners, arrived at Radicofani, and proceeded on the 18th to St. Guerico, on the 20th to Bon Convento, on the 21st they are to be at Siena, the 23d at Poggibonsi, and on the 24th and 26th at Castle Fiorentino and Fucecchio, and thence they are to march into the State of Lucca. Two other Columns are to follow by the same Road, but on Condition that they are not to enter Tuscany till the other are marched out. This Evening the Great Duke's Swiss Guards marced out of Florence towards Bologna, in order to proceed to Inspruch, where they are to receive his Royal Highness's Orders as to their proceeding farther: They escort four of the Great Duke's fine Coaches, and two Cases with Things of Value.

Extract of a Letter from Hanover, *dated* July *the 30th, 1745.*

'Since the Arrival of the Foreign Ministers mention'd in my last, Conferences of State were held every Day in the Forenoon, till Yesterday Morning, when there was a grand Council held at the House of the Great Provost, M. de Munchausen; which began at Eight, and lasted till Eleven. There were present, on the Part of the Court of Vienna, the Count de Khevenhuller, Baron Wasner, and Baron Jaxheim; the Baron de Steinberg and M. de Munchausen acted for our Court; and Baron d'Erthal was there in Behalf of the Elector of Mentz. This Conference is said to have been decisive; all Things were therein regulated and settled, as to the Measures which should be taken by all these Courts in the ensuing Dyet of Election; and, in Consequence thereof, Count Khevenhuller will actually set out from hence for Franckfort the Beginning of next Week, and M. de Munchausen the Monday following. Count Konigsfeldt continues his Conferences with M. de Munchausen, in relation to the Subsidies that are to be granted to the Court of Munich; and keeps a Courier in constant Readiness to carry to the Elector of Bavaria, his Master, the Result of his Negotiation. M. Andrie, the Prussian Minister, has likewise been endeavouring to set on Foot a Negotiation, but without Effect; the Propositions he made being either disagreeable themselves, or, at least, appearing so, from his Manner of propounding them; and it is thought, that if any Thing of that Kind is ever carried on here, it must be by some new Minister from the Court of Berlin; but we rather apprehend that such a Treaty may be commenc'd to Advantage at the Court of Dresden, his Prussian Majesty having desir'd that the Saxon Minister might return to his Capital.'

Brussels, August 6. The Report that was spread, as if the Dutch Troops that made a Part of the Garison of Oudenard, were treated in the same Manner as those in the Garison of Tournay, appears to be absolutely false and groundless, as is evident from the Capitulation; in the first Article of which, it is expressly said, that the whole Garison, as well Officers as Soldiers, shall be Prisoners of War. In respect to another Report, as if the Dutch had been very hasty in the Capitulation, the following Letter has been sent us from Holland, as a clear and authentick Refutation; but we are sorry to say, that many People here are of quite another Opinion. It is from Col. Brauw, who commanded the Dutch Battalion, to the States General.

High and Mighty Lords,

'I have the Honour to send this Letter to your High 'Mightinesses by the Captain-Lieutenant, and Adjutant 'Brues, of my Regiment, to inform you, that on the '21st, between Six and Seven in the Evening, the Cha'made was beat for a Capitulation, by Order of Major'General Maximilian Hugo a Bourgo, Commandant of 'Oudenard, after three Days open Trenches against the 'Town. The Garison consisted of 1311 Men, in'cluding Officers; and the Service of the Garison re'quired 1100 of these to be constantly under Arms. 'The Fire of the Besiegers Cannon and Mortars had, in 'a manner, destroyed two Convents; and the falling 'of some Houses in the Lower Town, occasioned a 'great Consternation. I can say, without Flattery, that 'the Troops in my Regiment behaved in this Affair 'extremely well, &c.'

Oudenard, July 22, 1745.

Hague, August 10. By Letters from Zealand there is Advice, that the Transports and Convoy, with the Troops and Stores for Ostend, arrived happily in that Road last Saturday Evening, the 7th Instant. Advices from Flanders mention, that 25 or 30 Battalions of French, with a considerable Train of Artillery, the whole under the Command of General Lowendahl, are in March for Ostend, in order to form the Siege of that Place; and the neighbouring Country was obliged to furnish 5000 Pioneers for that Purpose. A Detachment of 600 Men, that was going from Antwerp by Water, to throw itself into Dendermonde, has been obliged to return unsuccessful, with the Loss of a Bilander with some Dutch Troops. Major Harrel, who commanded the Detachment, was killed.

Ostend, August 11. The Enemy have unmasked two Batteries, consisting of six Pieces of Cannon; three of which flank'd the Harbour, the other three the Quay and Passage out of the Town; they kept a smart Fire for three Hours, but as they have not fired since Ten o'Clock this Morning, it is supposed a Battery of the Town has silenc'd them. We expect a strong Fire from the Enemy by To-morrow Night, or Friday Morning, as they are erecting a Bomb-Battery about 500 Yards from the Glacis.

HOME PORTS.

Dover, August 2. Arriv'd the Mary-Anne, Robinson, from Ostend; also about Ten Sail of Transport Ships, to take in Provisions, Water, &c. for Ostend.

Remain his Majesty's Ships Prince George, Duke, Dover, and Etna Fireship, with the Outward-bound as per last; and the Phillis, Long, for Newfoundland; with the Unity, Scott, for Scilly. Just arriv'd the Weasel Sloop of War from a Cruize, and has brought in a Dutch Ship from Flushing, laden with Powder and Shot, and other War-like Stores, which he took off Dungeness.

LONDON.

There are private Letters from Amsterdam, which say, that an Embargo has been laid there on all Vessels, not excepting those concerned in the Turbit Fishery, in order, as it is supposed, to bring down the Munster Troops into Flanders, and, perhaps, the Hessians also.

The French have lately had a fine Magazine at Corbeil blown up, in which there was upwards of 100,000 Pounds Weight of Powder; the Commissary of Stores, and 40 or 50 Workmen, were destroyed by this Accident; and the Chimnies, Roofs, and Windows of the Houses for a League round, were terribly shattered thereby.

The Light-arm'd Troops of the Grand Duke's Army push their Excursions as far as Philipsbourg, and thereby render the Communication between the Prince of Conti and Alsace very precarious.

Last Thursday Evening one Richard Lloyd, who for many Years past has been employed in driving the Clapton and Hommerton Stage Coaches, had the Misfortune to fall from his Coach-box near the Nag's Head on that Road, occasion'd by a sudden Jolt; when his Head pitching upon one of the Wheels, fractur'd his Scull, and he died on the Spot.

Last Friday the Tavistock, a new Ship for the Service of the India Company, was launched at the late Brounsdon's Dock at Deptford; the Command of which is given to Capt. Coates.

Last Saturday died, after a few Days Illness, at his House near Paul's Wharf, Mr. John Johnson, an eminent Sugar Baker, in Partnership with Mr. Butler of that Place.

The Books of his Majesty's Ship the Experiment, lately arrived from Jamaica, are sent to Chatham, to pay the Wages due to the Men removed into the Norwich, at that Place.

To-morrow the Wages due to the Companies of the Mercury and Swallow Men of War, to the Time the former was taken, and the latter, to the Time she was lost, will be paid at the Pay-Office in Broad-street.

This Morning the Lord Chief Justice Lee and Mr. Justice Burnet set out, in order to hold the Assizes at Rochester, in Kent, which begins this Day.

Last Saturday Night Orders came from the Right Hon. the Earl of Stair, that a Party of 24 Horse Grenadier Guards should hold themselves in Readiness, and to mount this Morning at Four o'Clock, in order to escort Marshal Belleisle, and his Brother, to Gravesend; where they are to embark on board some of his Majesty's Yachts, on their return to France.

Yesterday Morning, about Five o'Clock, a Fire broke out at Mr. Warren's, a Hatter in Barnaby-street, Southwark; but by timely Assistance, it was extinguish'd without doing much Damage.

On Saturday a Dispensation pass'd the Great Seal, to enable John Snrigley, M. A. Chaplain to the Right Hon. Francis Lord Oliphant, to hold the Rectory of Mashbury in the County of Essex, together with the Rectory of Chignell St. James and Mary, in the same County.

The same Day a new Commission of the Peace pass'd the Great Seal for the County of Bedford.

Also another for the North Riding of York.

Likewise for the Parts of Kesteven in the County of Lincoln.

The Right Hon. the Lords Commissioners of the Treasury have appointed William Fortune, Esq. to be Receiver General of the Land Tax for the County of Monmouth, in the room of ——— Williams, Esq. who has resign'd.

To Persons of either Sex
Afflicted with any Species of the PALSY, *or other* NERVOUS DECAYS.

NEVER were NERVOUS DISEASES, PALSIES, and PARALYTICK DISORDERS so frequent as of late they have been, nor have the usual Remedies been found adequate to those pertinacious Distempers: This occasioned a Physician, who employ'd his Thoughts much concerning them, to adapt a Medicine, *a Sovereign Elixir*, peculiar to, and effectual for, the Palsy, and all other nervous Complaints now reigning, which after he had experienced on vast Numbers of Persons of both Sexes, and always with surprizing Success, even so as infallibly to cure by it the Palsy, and all Paralytick Effects and Nervous Disorders, he permitted it to be made publick for a general Good, that so those labouring under these miserable Ailments, might know where to meet with a safe and most certain Cure, which it accomplishes in so short a Time, and with such Ease and Pleasure (a few Drops of it being a Dose, highly agreable to the Palate, and comforting to the Stomach and Bowels) as is almost incredible to relate.

But the taking one Bottle of it only, demonstrates its prodigious Efficacy to every one, and the Patients soon find all Numbness, Deadness, and Shaking, or Resolution of the Nerves, as well as all convulsive, cramp-like, or painful Contractions of them, vanish and return no more; and this, though these Diseases have been of many Years standing, and whether occasioned by long Illness, fast Living, hard Drinking, or any other Cause; for it performs all that can be wish'd for in Nervous Cases, creates an Appetite, expells Wind, rectifies the Digestion, occasions laudable Chyle, attenuates the Blood and Juices, causes a free and regular Circulation of 'em thro' the Capillary Vessels, revives and increases the Spirits, warms, comforts, strengthens, and replenishes the Brain and whole Nervous System, hence the Sinews, Tendons, Ligaments, and all the enfeebled Parts are invigorated, the Limbs restored to their pristine Steadiness and Strength, and the Palsy and all Paralytick Disorders and Nervous Decays suddenly cured by it, to the Admiration of the Patients themselves, and all about them.

This sovereign and incomparable Elixir is permitted to be sold only at Mrs. Holt's, at the Cross-Keys and Star below the Royal Exchange in Cornhill, London, at 3 s. 6 d. a Bottle, with printed Directions at large.
